UNDERGRADUATE COLLEGE OF ARTS & SCIENCES

The College of Arts & Sciences offers the broad, interdisciplinary education that defines the William & Mary experience. Through more than 40 departments and interdisciplinary programs, eight graduate programs and William & Mary's innovative COLL curriculum, students are encouraged to explore ideas across disciplines while deepening their understanding of the arts & humanities, social sciences, and natural, mathematical & health sciences.

An Arts & Sciences education is shaped by curiosity, close faculty mentorship and learning by doing. Students collaborate with accomplished faculty as they pursue original research, creative work and other hands-on experiences that bring classroom learning to life. Along the way, they learn to think critically, communicate clearly and approach complex questions with confidence.

Grounded in William & Mary's mission to convene great hearts and minds, the College of Arts & Sciences empowers students to contribute new knowledge, engage thoughtfully with the world and lead lives of principled achievement. Whether they pursue graduate study or careers in the public, private or nonprofit sectors, Arts & Sciences graduates leave William & Mary prepared to adapt, lead and make a meaningful impact in their communities and beyond.
